NEW PRACTICE ANNOUNCEMENT

Dear Colleague,

We are pleased to announce the opening of the Brantford Mental Health and Addictions clinic at 320 Colborne St E in Brantford. This clinic is comprised of four physicians with experience in addictions, Dr. Alyson Holland (McMaster University), Dr. Alexandra Hildebrand (McMaster University), Dr. Parminder Bahra (University of Toronto), and Dr. Preeti Popuri (Kasturba Medical College). The Brantford Mental Health and Addictions clinic provides concurrent addictions and mental health support to patients with an underlying substance use disorder. All substance use disorders are eligible for treatment through our clinic. Patients will also receive support with accessing community services, such as residential treatment, counselling, housing, and case management. To decrease barriers to service we offer both in-person and virtual assessments. Patients can access our virtual platform through the Digital Front Door at www.raamclinics.com. Physician and self referrals are welcome.

We are on an Electronic Medical Record (EMR) and notes will be sent back to referring physicians. New referrals will be accepted via (fax) (226-401-3818). For further information, please feel free to contact our office at 519-758-0008.

Sincerely,

The Brantford Mental Health and Addictions Clinic
